To: 562 NPA Industry Planning Participants and Code Holders

From: Alicia Janowski, CA Code Administrator

RE: **562 NPA Threshold set**

Based on the 562 NPA Jeopardy conference call held on April 18, 2000 at 1:30 p.m., the industry reached consensus that the 562 NPA will remain in jeopardy though extraordinary measures will not be implemented at this time.

The industry set a threshold of either 220 codes remaining available for assignment or the release of the 2000 COCUS, whichever occurs earlier, at which time NANPA will convene another conference call to examine the status of the 562 NPA.

It is the industry's objective to freeze the codes available at 220. Any requests received by the NANPA CO Code Administrator that will deplete the codes available below 220 will be suspended until after the status of the 562 NPA has been reexamined. Code request applications will be met on a first-come, first-served basis.

If you have any questions regarding code applications, contact Alicia Janowski, CA Code Administrator at 925-363-8738.
