

## NORTH AMERICAN NUMBERING PLAN PLANNING LETTER

Number: PL-NANP-128

Date: June 30, 1998

From: R. C. Breidenbaugh - NANP Administration  
202 756-5779; E-mail : rose.breidenbaugh@nanpa.com

Subject: NANP-Phased three-way split of 619 (California) Numbering Plan Area (NPA) with 858 & 935 NPAs

---

We have been advised by California-Nevada Code Administration (CNCA) that substantial number growth in southern California necessitates providing area code relief for the 619 NPA. The relief plan, approved by the California Public Utilities Commission (CPUC) in Decision, 98-06-018 dated June 4, 1998, calls a phased three-way split of the existing 619 NPA. Phase 1 will introduce the new 858 area code in the northern portion of the 619 on June 12, 1999. Phase 2 will introduce the new 935 area code in the eastern portion of the 619 on June 10, 2000.

The new 858 NPA will be bounded by the future 935 NPA to the east, the 760 NPA to the north, the 619 NPA to the south and the Pacific Ocean to the west. The new 935 NPA will be bounded by 760 NPA to the north and east, the 858, 619 and Pacific Ocean to the west. The attached **map** illustrates the 858, 935 and 619 NPA configurations after the completion of the three-way split.

Phase 1 of the three-way split of the 619 NPA, and the beginning of a permissive dialing period, will take place at 2:00 AM PDT on Saturday, June 12, 1999. The permissive dialing period will end at 2:00 AM PST on Saturday, December 11, 1999. During the permissive dialing period for phase 1, either the 619 or the 858 NPA will be acceptable in a dialed number terminating in the new 858 NPA. During the permissive dialing period for phase 1, either the 619 or the 858 NPA will be acceptable in a dialed number terminating in the new 858 NPA.

Phase 2 of the three-way split of the 619 NPA, and the beginning of a permissive dialing period for phase 2, will take place at 2:00 AM PDT on Saturday, June 10, 2000. The phase 2 permissive dialing period will end at 2:00 AM PST on Saturday, December 09, 2000. During the permissive dialing period for phase 2, either the 619 or the 935 NPA will be acceptable in a dialed number terminating in the new 935 NPA. During the permissive dialing period for phase 2, either the 619 or the 935 NPA will be acceptable in a dialed number terminating in the new 935 NPA.

After the permissive period for either phase 1 or phase 2, calls dialed with an incorrect NPA code, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

Attached are **lists** of NXXs and Rate Centers that will be associated with the 619 858 and 935 NPAs. These lists reflect assignments published in the LERG CD-ROM as of June 1, 1997. The lists are sorted two ways: numerically by NXX and alphabetically by rate center name.

Because NXX assignment is a dynamic process, any NPA-NXX list represents just a snapshot in time. For this reason, it is imperative that updated NXX information be obtained on an ongoing basis. The monthly LERG and the monthly NPA/NXX Activity Guide (NNAG) provide such data. LERG and NNAG are available by license contract from Bellcore's Traffic Routing Administration (TRA) group. Contact them by dialing the TRA Hotline at 972-699-6700.

All international and domestic carriers are asked to ensure that the new 858 NPA code has been activated throughout their networks prior to June 12, 1999. Test calls to verify routing to the new NPA code can be made by dialing 858-745-0858, effective May 12, 1999. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected November 12, 1999.

All international and domestic carriers are asked to ensure that the new 935 NPA code has been activated throughout their networks prior to June 10, 2000. Test calls to verify routing to the new NPA code can be made by dialing 935-745-0935, effective May 10, 2000. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected November 10, 2000.

The dialing plan for the 619,858 and 935 NPAs will be on a mandatory 1+10 digit basis, namely:

- All home (HNPA) local calls and toll calls within the 619, 858, & 935 NPA may be dialed on a 7-digit basis, i.e., NXX+XXXX (7 digits), or with a prefix "1" or "0" and 10 digits, i.e., 1+HNPA+NXX+XXXX (1+10 digits), as desired.
- All foreign NPA (FNPA) local calls and toll calls outside the 619, 858, & 935 NPA will be dialed with a prefix "1" or "0". i.e., 1+NPA+NXX+XXXX (1+10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0+NPA+NXX+XXXX (0+10 digits).

The CNCA has indicated the 619 NPA remains in a jeopardy situation, as described in Bellcore Planning Letter, PL-NANP-054, which was invoked in accordance with the *Central Office Code (NXX) Assignment Guidelines* (INC 95-0470-008). Because of increased demand for central office codes and the possibility of premature exhaust, the CNCA has applied *special and extraordinary NPA-specific* conservation measures per Section 8 of the guidelines on April 24, 1997 as described in the above Planning Letter.

General questions concerning the three-way split of the 619 NPA may be directed to the CNCA at 925-823-2880, and related code conservation measures may be directed to Lockheed Martin - NANPA CO Code Administration at 925-363-8701. Questions of a technical nature should be directed to the NPA project coordinator, Bill Dibble - Pacific Bell, at 619-886-3463.

Questions concerning the contents of this letter may be referred to Rose Breidenbaugh, at 202-756-5779.

Rose Breidenbaugh  
North American Numbering Plan Administration

### 619/858/935 Proposed Area Code Split

After the Split, the following Rate Centers will be in:

**New 935 Area Code  
 Phase 2**
